11th Central & Eastern European Course in Pediatric Surgery

Challenges in Neonatal and Pediatric Surgery

Program

23rd-24th February 2018
Athens, Greece

Dear Colleagues,

The European Pediatric Surgeon's Association (EUPSA) has the pleasure to announce the 11th Central & Eastern European Course in Pediatric Surgery on the topic of "Challenges in Pediatric Surgery" in Athens, Greece.

Challenges exist for pediatric surgeons with regards to the variations in pathologies and often due to low number of cases to gain experience. The present course will focus on various aspects that include congenital anomalies and oncology.

The 11th Course is envisaged to provide an excellent overview through lectures given by experts. The Course also includes ample discussion time to interact with the faculty.

Athens is the capital and largest city of Greece. Athens dominates the *Attica* region and is one of the world's oldest cities, with its recorded history spanning over 3,400 years. It was also at the heart of Ancient Greece, a powerful civilization and empire. The city is still dominated by 5th-century BC landmarks, including the Acropolis, a hilltop citadel topped with ancient buildings like the colonnaded Parthenon temple. The Acropolis Museum, along with the National Archaeological Museum, preserves sculptures, vases, jewelry and more from Ancient Greece.

The country is also of interest to physicians, as Hippocrates, referred to as the "Father of Medicine" in recognition of his lasting contributions to the field founded the Hippocratic School of Medicine in Ancient Greece. This intellectual school revolutionized medicine, establishing it as a discipline distinct from other fields with which it had traditionally been associated (theurgy and philosophy), thus establishing medicine as a profession. The Hippocratic Oath, even today, serves as a foundation for other, similar oaths and laws that define good medical practice and morals.

The European Pediatric Surgeon's Association (EUPSA) along with the local organization team from Athens welcomes you to Greece for the 11th Central & Eastern European Course in Pediatric Surgery!

Amulya Saxena, MD
Chairman EUPSA Education Office

FRIDAY 23rd FEBRUARY

08:00 Course registration

09:15 Opening address

Amulya Saxena

09:30 Necrotising enterocolitis : an etiological journey

10:00 Meconium ileus and meconium peritonitis

10:30 Surgical treatment of Hirschsprung's disease

Robert Carachi
Amulya Saxena
Risto Rintala

11:00 Coffee break

11:30 Resolving difficult conditions/complications in EA/TEF by MIS

12:00 Duodenal atresia/stenosis: Is it worth laparoscopic repair?

12:30 Pediatric surgery and the knowledge of genetics in treatment

Manuel Lopez
Jorge Correia Pinto
Sabine Sarnacki

13:00 Lunch break

14:00 Minimal access repair of Congenital Diaphragmatic Hernia

14:30 Congenital diaphragmatic hernia: Hepatopulmonary fusion

Dragan Kravarusic
Yasen Al-Alayet

15:00 Coffee break

15:30 Surgical management of congenital cloaca

16:00 Surgery and new insights into congenital pouch colon

Risto Rintala
Amulya Saxena

19:30 Course dinner

SATURDAY 24th FEBRUARY

09:30 Controversies in management of gastro-esophageal reflux

10:00 Laparoscopic approach in VUR and OMGU

10:30 Robotics in pediatric surgical pathologies

Dragan Kravarusic
Manuel Lopez
Sabine Sarnacki

11:00 Coffee break

11:30 New methods of imaging evaluations on Chest Wall Deformities

12:00 Pre-bended and personalized bars for pectus excavatum repair

12:30 Management algorithm for chest wall deformities

Manuel Lopez
Jorge Correia Pinto
Amulya Saxena

13:00 Lunch break

14:00 Pseudo intestinal obstruction

14:30 Surgical management of extrahepatic portal hypertension

Robert Carachi
Risto Rintala

15:00 Coffee break

15:30 New imaging (computational anatomy) in pediatric surgery

16:00 Recent advances in pediatric solid tumors

Sabine Sarnacki
Robert Carachi

16:30 End of Course

Course Faculty

| | | |
|---------------------|------------|----------------|
