Advanced Pediatric Minimal Access Surgery Skills lab

17-19 May 2018
Timisoara, Romania
Dear Colleagues,

It takes great pleasure to invite you to the Advanced Paediatric Minimal Access Surgery Skills Lab in Timisoara, Romania which is organized under the auspices of the Romanian Association for Pediatric Minimal Invasive Surgery (ARCPMI) and as an approved Course of the European Paediatric Surgeons Association.

The Skills Lab prides itself in offering the Hands on experience to develop skills in Minimal Access Surgery on live models. The facilities at our Institution provide state of the art infrastructure to train pediatric surgeons in performing complex minimal access procedures.

The format of the Skills Lab will involve instructions on the exercises and will dedicate more time towards the Hands-on training and practicing of techniques required for advanced minimal access surgical procedures mainly aimed towards the paediatric age pathologies.

Participants will have the possibility to have an hands-on experience for procedures in the abdomen as well as the thoracic cavity. The Skills Lab will have limited number of participants to allow more Hands-on time on a variety of procedures.

Timisoara has Romania’s ‘s most attractive urban areas, built around a series of beautiful public squares and lavish parks and gardens. With western Romania’s nicest hotels and restaurants, it makes a perfect base for exploring the Banat region.

I look forward to your participation at this Course in Timisoara!

Sincerely,
Prof. Eugene Boia
President ARCPMI
